

## [Online Libraries: OVID and Ebscohost Databases](#)

CINAHL is no longer available via OVID, and we now have a license with Ebsco for that database. Your password is emailed out to you using your RCN email account by Camelia Williams at the beginning of each semester.

### **Alternatives if you are blocked**

1. Plan ahead. If you wait until the last minute, you are more likely to be locked out of a database or a journal. If requests are spread out throughout the assignment period, you are less likely to be turned away from a particular product.
2. Use Medline via the Ebsco interface or the PubMed interface (<http://www.ncbi.nlm.nih.gov/pubmed/>). Literature Searches can be limited to Nursing Journals.
3. If you are a Kansas resident, you can apply for a Kansas Library Card (<http://www.kslc.org/>) at your local Public Library. There are several health related databases you can access once you get a pin number. The ProQuest database includes access to approximately 400 full text Nursing journals.
4. Use other appropriate databases available to you via Ebsco.
