

What is Blackboard/WebCT?

Internet courses through Research College of Nursing are available to students worldwide using course management software called Blackboard/WebCT. Blackboard/WebCT contains tools such as syllabus, content modules, mail, discussion, quiz, compile, chat room, whiteboard, student presentations, student homepages to name a few. These courses, conducted entirely over the World Wide Web and Internet technologies, require students to have access to a computer, a modem with an Internet connection, and a WWW browser e.g. Internet Explorer or Netscape Navigator. Students must also have the ability to upload and download files from the World Wide Web.
